Welcome to Tagxedo, word cloud with styles

Tagxedo turns words -- famous speeches, news articles, slogans and themes, even your love letters -- into a visually stunning word cloud, words individually sized appropriately to highlight the frequencies of occurrence within the body of text.

The following are a few examples to show the versatility of Tagxedo, especially how tightly the words hug the shapes. Feel free to click the pictures and play with them in Tagxedo. If you like these word clouds, you must also check out the [Tagxedo Facebook page](#) which has many more candies for your eyes, and read about the [101 Ways to Use Tagxedo](#).

Gallery

Currently the gallery is under construction, and here are some tag clouds I made myself. Eventually users will be able to submit their artwork to the gallery (though it will be moderated to make this a kids-friendly place).
